SUMMARY

Frontend Developer skilled in building responsive and dynamic web interfaces using HTML, CSS, JavaScript, Angular, and React. Experienced in implementing UI components, integrating APIs, and developing reusable Angular modules. Equipped with a foundational understanding of UI/UX principles and committed to writing clean, maintainable code while continuously improving technical capabilities.

WORK EXPERIENCE

Associate Software Engineer   **July 2024 - June 2025**
MapleLabs Solutions Private Limited (A Xoriant Company)

- Optimized system configurations through contributions to Sizer tools for a leading global data storage enterprise.
- Built interactive and responsive UI's using Angular, TypeScript, JavaScript, HTML, and CSS, focusing on performance and user experience.
- Enhanced component functionality by integrating custom logic and client-specific libraries.
- Managed RESTful API integrations to enable real-time data processing and visualization within the Sizer application.
- Developed unit test cases using Jasmine to ensure code reliability, maintainability, and high test coverage.
- Upgraded UI elements to improve usability and consistency, aligning with client design systems and standards.

PROJECTS

Portfolio website

Technologies: React, Tailwind CSS, JavaScript

Designed and developed a fully responsive personal portfolio using React and Tailwind CSS to showcase frontend and UI/UX projects. The site features reusable components, client-side routing, smooth animations, and a theme toggle for dark/light mode, ensuring a seamless experience across devices.
