SUMMARY

Frontend Engineer with 1 year of professional experience building scalable, tested UI components in Angular and TypeScript. Skilled in translating requirements and designs into maintainable solutions with REST API integration and documentation. Complemented by hands-on React and MERN projects, demonstrating UI craftsmanship, adaptability, and a strong growth mindset.

SKILLS

Programming Languages: Java, JavaScript (ES6+), TypeScript

Frontend Development: ReactJS, Angular, Next.js,HTML, CSS, Tailwind CSS

Backend Development :   Node.js, Express.js, MongoDB, RESTful APIs

UI/UX & AI Tools: Figma, GitHub Copilot, OpenAI

Cloud & DevOps: AWS (EC2, S3), Docker (currently upskilling)

Tools & Practices: Git, GitHub, Vite, Jasmine (unit testing), Agile/Scrum, Documentation

---

PROFESSIONAL EXPERIENCE

Associate Software Engineer   **July 2024 - June 2025**
MapleLabs Solutions Private Limited (A Xoriant Company)

- Built scalable UI components in Angular & TypeScript with 95% strong typing, improving reliability and maintainability.
- Delivered features with ≥70% unit test coverage, ensuring quality and adherence to coding standards.
- Integrated customer-specific libraries and contributed to design-system compliance.
- Translated Figma mockups into pixel-perfect UIs integrated with REST APIs.
- Drafted handover documentation to support maintainability and reusability.
- Collaborated in Agile sprints, provided status updates, participated in code reviews, and resolved UI bugs.

PROJECTS

HireLens - AI Resume Analyzer│ React, Tailwind CSS, TypeScript , Puter.js
Built a responsive AI-powered resume analysis tool with serverless authentication, cloud storage, and AI integration using Puter.js.
Link: Resume analyzer

FolioForge - Portfolio Website Generator (Ongoing)│ React, Node.js, Express, MongoDB, Tailwind CSS, Vite
Building a MERN-based portfolio generator with SSO authentication, dynamic templates, and instant deploy/download options.
Github Repository Link: Portfolio generator

2048 Game - Ice Edition│ React, TypeScript, Tailwind CSS
Built an interactive 2048 puzzle game with a blue ice-inspired theme, smooth animations, responsive layout, and custom logic for tile merging, score tracking, and game-over conditions.
